SKILLS SUMMARY

- **Languages:** JavaScript, TypeScript, HTML, CSS, Java
- **Frameworks:** Next.js, React, Node.js, Express.js, Redux
- **UI Libraries:** Tailwind CSS, Framer Motion, Material UI, Sass, Bootstrap, Chakra UI
- **Tools:** Git, Webpack, MongoDB, Firebase
- **Platforms:** Visual Studio Code, IntelliJ IDEA

WORK EXPERIENCE

FRONT-END DEVELOPER | NONA LIFESTYLE

August 2022 - Present

- Worked closely with the product team to exchange ideas on user interface design and thoroughly understand application requirements.
- Effectively translated Figma designs into responsive React components, utilizing TypeScript for implementation.
- Designed and developed dynamic, responsive websites using HTML, CSS, JavaScript, Next.js and React.js.
- Utilized REST APIs to fetch and display data from databases. Conducted troubleshooting and debugging of application codes.
- Established and enhanced front-end architecture for optimal user interface performance. Documented application changes and contributed to ongoing updates.

INTERNSHIP

FULL STACK WEB DEVELOPER | NEWTON SCHOOL

December 2021 - August 2022

- Engaged in Full Stack Web Development with a focus on problem-solving.
- Acquired proficiency in a comprehensive technical stack, including HTML, CSS, JavaScript, React, Redux, Bootstrap, Material UI, Node.js, Express.js, MongoDB, PostgreSQL, Firebase, and Java.
- Actively participated in contests organized by the platform to enhance problem-solving skills. Successfully completed over 62% of assignments, encompassing Data Structures and Algorithms (DSA) as well as web development.
- Contributed to various projects, such as the Social Media App, Netflix Website, OLX Website, Flappy Bird Game, and a static Trekking Website.

REACT DEVELOPER | BROTOTYPE

August 2021 - November 2021

- Developed web applications with a focus on front-end technologies (HTML, CSS, JavaScript, React), prioritizing UI/UX design for a seamless user experience.
- Actively pursued learning C++ and Java to enhance problem-solving abilities.
- Collaborated with a team of 5 members to create a responsive website for a competition conducted by BroTOTYPE. Our team's project was awarded the first prize, showcasing effective teamwork and project management skills.

PROJECTS

Ecommerce App | [LINK](#) | [SOURCE CODE](#)

- Developed a comprehensive CMS, Admin, and API to manage multiple vendors/stores, generating individual API routes for each (e.g., Shoe store, Laptop store).
- Implemented CRUD functionality for categories, products, filters (e.g., color, size), and billboards, including the ability to upload and manage multiple product images.
- Enabled search and pagination across all categories, products, sizes, colors, and billboards; featured product control for homepage display.
- Integrated order management, sales tracking, and revenue graphs, with Clerk authentication, Stripe checkout, and webhooks.
- Utilized MySQL, Prisma, and PlanetScale for database management.

Social Media App | [LINK](#) | [SOURCE CODE](#)

- Integrated an emoji picker component and enabled CRUD operations on posts, including like/dislike functionality.
- Implemented user authentication, profile updates, and search debouncing for improved user experience.
- Added sorting functionality to display the latest posts first.

Netflix Clone | [LINK](#) | [SOURCE CODE](#)

- Integrated TMDB API for comprehensive movie data retrieval.
- Implemented hover animations and mobile-friendly design for an improved user experience.
- Utilized react-youtube to play movie trailers directly from YouTube.

EDUCATION

Bharathiar University

Bachelor of Commerce (BCom)

Gudalur, India

June 2018 - May 2021
